**Reports from Baltimore—The New Commissioners to make Formal Demand for the Surrender of Station Houses—The Old Board Promise a Reply in Writing.**

NEW YORK, Nov. 3.

Up to last night there were 114,044 voters registered in this city.

William A. Francis, Treasurer of the Montana mining and discovering company, while insane yesterday committed suicide.

The 7th New York Regiment has decided not to visit the Paris exposition.

General Sheridan is removing a vast amount of munitions of war accumulated at Baton Rouge.

Colonel Trisbee confirms the report of an attempt to assassinate him at Alexandria.

The Commercial charges Major Monroe with peculation and perjury.

PORTLAND, Nov. 3.

In the case of the Atlantic & St. Lawrence Railroad bond holders, who applied for an injunction to enjoin the Grand Trunk Railway Company, and employes from preventing bond holders from taking possession of the road, the injunction was refused by Judge Tapley.

FORTRESS MONROE, Nov. 1.

The 7th colored regiment, Col. Shaw commanding, arrived here to-day from New Orleans on the steamer Mississippi, en route to Baltimore to be mustered out.

BALTIMORE, Nov. 3.

The new police commissioners appeared at the Marshal's office at 10½ o'clock this forenoon. They were admitted by a guard within the enclosure and proceeded to the door of the Marshal's office, where they were met by the clerk of the old Board of police commissioners, to whom they made their demand, and requested to see the members of the old Board. This request was refused by the clerk, when the new police commissioners immediately retired. They were greeted as they passed through the large crowd gathered in front of the Marshal's office, with derisive laughter by some of the friends of the old Board.

BALTIMORE, Nov. 3—12 m.

At 12 o'clock, noon, the new Board of Police Commissioners, after spending about one hour with their counsel at his office, got into a carriage bearing a document understood to be a formal demand for the delivery of the Police Commissioners and pertaining thereto, to their possession. They took a circuitous route to reach the office, where the old Commissioners were in session.—After making a detour of about a mile to avoid the large crowds that were gathered together at various points, they approached the office of the old Board of Police Commissioners, where their appearance was the signal for a tumultuous demonstration of approval by the largely increased crowd.

The new Police Commissioners were again admitted into the inclosure, and at the door of the office were met by the old Commissioners, who received the document, telling the new Commissioners that the Commissioners, inside would consider the matter and make their reply in writing. Messrs. Valiant and Young then returned to their carriage, amid mingled groans, hisses and hootings. The carriage drove off to the corner of North and Baltimore streets to the Conservative headquarters, where the new Commissioners were received with loud cheers by the crowd gathered there.

It understood that the new Commissioners are busy organizing a new police force.

BALTIMORE, Nov. 3.

Judge Bond has issued a bench warrant for the arrest of Messrs. Young and Valiant. The Judge also summond the sheriff before him, and inquired if it were time he was summoning a posse. He said "Yes;" he was doing so at the request of the new commissioners.

The Judge warned him to desist, and said if he did not obey he would forthwith cause his arrest.

A few officers have been sworn in by the new Police Board, and are designated by white ribbons. It is expected that the old force will arrest them.

[By Cable to Associated Press.]

Liverpool, Oct. 31. Steamship Hibernian, from Quebec, has arrived.

Brest, Oct. 31. Steamship Europe, from New York, arrived this afternoon.

Dublin, Oct. 31. Mr. Bright has arrived in this city. At the grand banquet given him, which was a great success, he made a speech, urging in strong language the application of proper remedies for the removal of Irish grievances.

Paris, Oct. 31. The Emperor Napoleon has informed the Empress Carlotta that she had better tell Maximilian to cede two of the provinces to the United States in order to consolidate his rule in Mexico.

Rome, Oct. 31. The Pope has delivered an allocution, condemning the conduct of Italy, declaring that he is ready to die in defence of the right, and that in case of need he will seek the free exercise of his ministry in another land.

London, Oct. 31. Consols 89¾ for money.

American Securities—U. S. 5 20s 73¾. Illinois Central Railroad shares 77½. Erie R. R. shares 51¾.

Southampton, Nov. 1. Steamship Bavaria, from New York, arrived to-day.

Liverpool, Nov. 1. Steamship Queen, from New York, has arrived.

Paris, Nov. 1. A decree has been issued appointing Commissioners for reorganizing the French army. Napoleon will preside over the commission.

London, Oct. 31. The Times claim great victories over the Christians in Candia. In a late fight battle near Grossa 400 Cretans lost 700 men, while their Turkish foes lost very heavy. The Christians (Greeks) had been lost in a cave where they had sought a hiding place and refuge, the tide rising and submerging them. Large submissions were being made by the Christians to the Turkish authority.

Paris, Nov. 2. The Presse says an alliance between Prussia and Russia is a fixed fact.

Rome, Nov. 2. The Italian press denounce the allocution of the Pope against the conduct of Italy.

It is reported that Count Ricasoli will soon resign his position in the Italian Ministry.

London, Nov. 2. The British Admiralty have promised a deputation that waited upon them in regard to the matter that they will encourage the projected Nicaragua route.

Paris, Nov. 2. It is said that Count Montholon has been ordered to retire from Washington and repair to Lisbon, and that Count Berthany will succeed him.

ANOTHER ACCIDENT ON MONT BLANC.—The Paris correspondent of the London Times gives an account of a fearful accident, the news of which comes from Chamounix. One of the victims was Capt. Arkwright, an Englishman, whose mother and sisters were travelling with him. The letter, which is dated Oct. 17, says:—

"On Friday morning last he resolved to attempt the ascent of Mont Blanc, and one of his sisters decided on accompanying him as far as the Grande Mulets. Early on the following morning Captain Arkwright took his departure, with two guides and a porter, and about 9 o'clock they were seen ascending the Grand Plateau. In advance of the party went Sylvain Couttet, the proprietor of the new huts on the Grands Mulets, attached by a rope to a coachman of the Hotel Royal, known by the name of Nichols, who wished to profit by the opportunity to ascend Mont Blanc. On reaching the Grand Plateau the parties agreed to take the passage which had been usually followed before 1820, but which was subsequently abandoned in consequence of a catastrophe similar to the present. They adopted it in preference to the 'Corridor,' from its shortening the journey by two hours, and because they calculated on having much less ice to cut thro', as was experienced during the summer by three or four other parties. They were about half an hour in their ascent when Sylvain Couttet, who was in advance, suddenly heard above him a loud detonation. He looked up, and to his horror saw an avalanche rushing down with fearful rapidity. He instantly shouted out to those who were below him, 'Save yourselves! to the right!' He threw himself in that direction, advanced a few steps, struck his staff into the snow, and clung to it with all his might, and his companion, Nicholas, did the same. They both threw themselves flat on their faces and buried their heads in the snow. They had hardly done so when a tremendous crash followed, and the immense mass thundered along quite close to them—so close that they were all over splashed with the fragments of the ice. In a few minutes, when the avalanche had passed, they raised themselves up, and looked about for their unfortunate companion. They saw nothing—nothing but a furrow under them, and further down on the Grand Plateau a mass of blocks of ice."

THE HURRICANE IN THE WEST INDIES. A brief dispatch, received a few days ago, described generally the effects of the late hurricane at Turk's Island, and the loss of lives. The disasters to shipping have already been published. A letter from Salt Cay gives the following particulars of the destruction on the land:

"Ashore the havoc created was fearful; the uprooting of trees, the destruction of houses, the *debris* sweeping with the sea, which was now washing over the entire island, brought terror to the affrighted people huddled together in their residences. At noon the hurricane suddenly lulled, and many came forth to view the destruction caused; but to the weather-wise the calm was deceitful, and but the premonitor of a further and more violent wind; and ere half an hour had elapsed a puff from the south-east came bursting over the island with a fury which rivals all comparison. Raging with terrific violence, it was impossible for almost anything to withstand it. That insatiate monster, the sea, now commenced more strongly to show its power, and fearful surf and heavy billows rolled with tremendous violence over the entire cays comprising Turk's Island, washing everything before it houses, timbers of vessels, small boats and the corpses of the lifeless mixed indiscriminately together. As is not satisfied with her destruction, the great ocean must still more devastate, and working slyly, insidiously, but rapidly among the sands, hurl the coffined dead from their churchyard graves; the shrill, wild cry of the sea-gull, as he was borne despairingly to the leewars, being the welcoming sound of those ghastly dead to their earthly resurrection."

NEW YORK, Nov. 2.

Col. Roberts has issued a stirring address to Fenian brotherhood calling on them to form themselves into military companies at once. The neutrality laws he says "will not prevent them and British influence will no longer be allowed to rule this country to your injury and Ireland's. Strange events are in future and you know not how soon you may be called upon to strike again for Ireland let not the occasion or call find you unprepared." He intreats them to work.—Instructions requiring secrecy will be sent to the circles. A letter read here says to Fenian prisoners recently in hands of Canadian authorities have escaped and are now in Rochester. They state that the American consul at Toronto expressed a hope that the British government would hang them all.—Gen Gleason who is not in New York is preferred a claim against the British government to be forwarded to Washington, for $80,000 for illegal imprisonment in Ireland.

COLORED SUFFRAGE IN TENNESSEE. A correspondent of the Cincinnati Gazette, writing from East Tennessee, says:

Three months since the loyal men of East Tennessee would not have permitted colored men to unite with them in a Union meeting. Now they have less prejudice on this subject than the masses of the Northwestern States. There are 60,000 adult loyal black men in this State; 80,000 adult rebel whitemen, and 40,000 adult loyal white men. The loyal whites are rapidly realizing the importance, if not necessity, of enfranchising the loyal men of color, in order to save the State from the rule of traitors. I predict that the Legislature which convenes next month will enfranchise the colored race. An overwhelming majority of the loyal men of the entire State will sustain them in so doing.

FATAL ACCIDENT AT PORTSMOUTH.—Portsmouth, N. H., Nov. 3. The wife of Carpenter David Cobb, stationed at the Navy Yard, was burned to death last night, by the explosion of a kerosene lamp. She was in Portsmouth yesterday afternoon, shopping. Mr. Cobb is a native of Kittery, and was appointed Carpenter in the Navy in 1847, during which time he has seen 19 years of sea service. His wife was an estimable lady, and highly respected.

THE CASE OF THE YOUNG MECHANIC. The Government evidence closed on Saturday, and Mr. Paine opened for the defence. He said:

The defence would show that Mr. McLoon, the owner of the Young Mechanic, tried to get another Captain for this ship before he got Capt. Grant, who had just arrived in New York with another vessel from Liverpool, that the testimony of both the first mate and steward was not to be decided on, that the vessel was not insured beyond her value, and that the amount of insurance had been put at a larger figure from the fact that Mr. McLoon had lost a vessel which had been destroyed by the Alabama on which he had no insurance, and in this case he took the precaution to be well insured, and that the vessel was sufficiently found for the voyage. He said the defence would not rest entirely on this, but they would show that both Captain Grant and Mr. McLoon were among the least likely men to conspire to commit such a heinous crime as the former was charged with, and he commented in severe terms on the two principal witnesses on whom the Government relied to prove their case.

WASHINGTON, Nov. 1.

General Grant's famous order of last July, directing the military authorities to take action in criminal cases which were not prosecuted by the civil authorities, appears to be very generally neglected in the South. Though regular charges against all the principal actors in the New Orleans massacre have been filed at the military headquarters, no action has been had thereon, and the only action taken by the civil authorities has been to indict members of the convention for rioting. The president of that body, Mr. Howell, has just gone South to stand his trial on this charge, and it is said that the plan is to convict him and fine him less than $300, so as to preclude all appeal. This will enable the administration to say that the conventionists have been judicially declared to be the rioters. The manner in which the civil authorities administer justice in portions of the South is well illustrated in the case of Judge Cooley of the District Court of Louisiana, who lately held a session of his court at Rapide Parish. There were nineteen cases of murders of freedmen and union men on the docket, all of them perfectly clear cases of deliberate murder. In the first six cases, at the end of each trial, the jury, without leaving their seats, returned a verdict of not guilty. At the close of the sixth case, Judge Cooley broke up his Court and left the parish, satisfied that the civil authorities would not punish rebels for crimes against union men or negroes.—[Special to Boston Advertiser.

WASHINGTON, Nov. 1.

Ex Secretary Harlan has written a letter in answer to a communication from Hon. D. N. Cooley in relation to the sale of the Cherokee lands to the Connecticut Emigration Company. Mr. Harlan shows pretty conclusively that the lands were sold for as high a price as the Senate of Senate committee on Indian affairs, of which Senator Doolittle was chairman, or the Indians or their attorneys ever expected, and that the terms of sale as compared with the rates at which the neighboring lands could be obtained, were very advantageous to the seller. He says that Sac, Fox and Kew lands, in every respect as good as these, were and are now offered for sale at from seventy-five to eighty cents per acre. In answer to the charges of corruption Mr. Harlan says: "By inquiring of the purchasers these villifiers would have learned that I had no personal interest in this company, or in the sale of these lands, direct or indirect, immediate or remote, and that I never owned or held, or sought to own or hold, one dollar's worth of their stock, and that no relative or business associate of mine ever held or owned, or sought to hold or own any such interest or stock."

THE NEW YORK ELECTION. CLOSE FIGURES. The Democratic State Committee have been at work for a week trying to cypher out a democratic majority in the State at the coming election—and after three or four attempts have at length put forth an estimate, giving the Republicans 33 counties with aggregate majorities of 57,600, and taking 21 counties with aggregate Democratic majorities of 58,550—claiming a net democratic majority of 950 votes. This estimate, the Tribune says, will be wiped out in any one of a dozen counties. The democrats put up their majority in New York City from 25,000 last year to 38,000 this year—which perhaps they may get, as they have naturalized vast numbers of foreigners this fall. The democrats claim thirteen counties by less than a thousand majority each—of which, the Tribune says, the Republicans will get probably three-fourths. The Republicans estimate their majority at from 20,000 to 30,000—allowing the democrats their 38,000 in the city. There can be no confident prediction, however. The most herculean efforts will be made by the Johnson men and democrats to obtain a majority of the popular vote of the State. That is all they have now left to hope for. It would enable the administration to claim the semblance of a party in the north for a single year, and would encourage President Johnson and the rebels to stand out against the ratification of the constitutional amendment.

The Tribune says the democrats have naturalized 32,000 foreigners this fall.

A writer who says he has been over the entire State of New York, communicates his estimate of the coming election to the Times. Allowing Hoffman 38,000, and possibly 40,000 majority in New York city, he predicts the following aggregate result:

| | |
|---|---|
| Majorities for Fenton, | 69,325 |
| Majorities for Hoffman, | 50,300 |
| Excess for Fenton, | 19,025 |

The New York correspondent of the Charleston Courier writes: "Conservative men who have lately sojourned in or reside in Western New York, informs us that in their opinion, the radicals will re-elect Mr. Fenton."

THE NEW OFFICERS. Gen. Miller our new postmaster takes possession at the office today, his commission having been made all right. Mr. Weeks retires with the highest respect and good wishes of the community, and of his political friends. He has been a faithful and able officer, and so has Mr. Collector Wingate, and others who have become victims of President Johnson's treachery to the Republican party, and they will be held in remembrance.

Gen. Roberts will also take possession at the Custom House to-day. Some romancing correspondent writing from here speaks of the General as not desiring the office really, but taking it on the whole to prevent its falling into the hands either of a copperhead of the Emery stripe, or a renegade of the Weston pattern. Amiable and considerate Roberts! Innocent correspondent! The latter, we suppose had not heard of the four weeks campaign at Washington. The fact is, the General is a democrat of the democrats—pure and unadulterated—as uncompromising a one as can be found at the polls on an election day. He never pretended to be anything else.

AMERICAN LAW REVIEW. Messrs. Little, Brown & Co., the well known Law Booksellers, of Boston, have just issued the first number of a quarterly law magazine, with the above title. We believe it to be, now, the only law magazine in New England, and with one or two exceptions, the only one of any value in the United States. Coming from Boston, where is one of the most able Bars in the country, it should be, as this number indicates it will be, such a journal as is needed by the profession.

Besides discussions of important legal questions, it will contain leading American and English cases, with notes, and a Digest of all the cases decided in the U. S. Supreme Court, and of all English cases of interest in America, and important legal intelligence generally, with much other matter of interest to lawyers, merchants and others.

The leading paper is entitled "The Natural Right of Support from Neighboring Soil," in which the writer has collated the leading English and American cases on the subject, and concludes, that the the measure of care required by the owner of soil in its use so as not to injure his neighbor, is laid down in "Rockwood vs. Wilson," 11 Cush. 221. He is bound to use ordinary care, and this is a question for the jury.

Another interesting paper on the "Testimony of Experts," is from the pen of Prof. Washburn.

We judge that the Review will find a place in the library of every reading lawyer.

It is handsomely printed on clear paper. Terms $5 per year.

WEARING OF SHEATH-KNIVES ON SHIP-BOARD PROHIBITED. An act of Congress, passed July 27, 1866, provides that the regulation, in force in the navy, prohibiting the wearing of sheath-knives on ship-board, shall extend and apply to all seamen in the merchant service. It also makes it the duty of the person in command of any vessel, and of the ship-owner or any person contracting for the employment of a seaman or subordinate on board a ship, to notify every person offering to ship of the provisions of this law, and to require his compliance therewith, under a penalty of $50 for each omission.

Mr. J. J. Irby of Lynchburg, Va., gave one of his negroes, $300 in gold, to bury, when the Federal troops took possession of that place. The man performed his work so faithfully that he was unable to find it until recently, when he returned the long lost treasure to his former master.

A NEW SWINDLE. The New Bedford Standard says a citizen of that place, Thursday, was just about to step into the cars for home when he was accosted by a respectable looking stranger, who pulled out what appeared to be a nice gold watch, and said:—"I am hard up and must have some money; if you will take this watch and let me have forty dollars until I redeem it, I will pay you anything you say; I will give you ten dollars for the use of the money." The party thus importuned demurred, but at last consented to give the man $30 for the watch. On being afterward submitted to the judgment of a jeweller, the thing turned out pinchbeck, and worth almost nothing.

The Corn crop of the United States for the present year is estimated at the enormous amount of 1,039,000,000 bushels. It is stated that in the last twenty-five years the annual increase of the corn crop averaged four per cent., and in the three censuses last taken it is stated, thus: In 1840, 377,371,875 bushels; 1850, 592,671,104 bushels, and 1860, 830,451,707 bushels. Half the crop is grown in the Mississippi vally, north of Tennessee.

A SAVAGE MURDERER. On the 26th ult. a terrible tragedy was perpetrated near Fort Randall. The Sioux City (Iowa) Times says that James Dunley of New York, one of a party of ten miners coming down the river in a Mackinaw boat, attempted to murder the whole party while asleep. He had secured their only gun, then commenced on his sleeping comrades with an ax, killing a man named Easton and fearfully wounding one McCullough, from Minnesota. The party escaped to their boat, taking the wounded man with them. The commander at Fort Randall sent Indian scouts after Dunley, but they failed to capture him.

It has been officially announced by the Comptroller of the Currency that the Treasurer has received bonds on deposit for the entire three hundred millions of national currency authorized by law, and that the limit having been reached, it will be useless to forward bonds and to apply for an increase of capital or for the organization of new banks, with the expectation of getting circulating notes.

The New York Times says that thus far about 12,150 citizens have been naturalized in that city since the 8th of October.

THE BALTIMORE TROUBLE. The despatches up to Saturday evening had brought intelligence of no actual collision between the old and new police commissioners or their forces although the latter had made a formal demand upon the former for a surrender of their places, and the new commissioners were said to be organizing a force. It seems that Gen. Grant is not prepared to accede to President Johnson's wishes for a forcible intervention by the U. S. troops to install the new officers. For this we have the authority of a *democratic* correspondent of the Boston Herald. He says:

Developements to-day show that there is some difference between the civil and military officers of Government, relative to the course to be pursued in regard to the troubles in Maryland. The President and Gen. Grant and Secretary Stanton had a protracted conference this morning on the subject, after which Gen. Grant was invited to attend the Cabinet meeting. It is believed that the question at issue is whether the Government will sustain Gov. Swann in aggressive measures to obtain control of the officers and station houses now held by the old Police Board. The latter are firm in their refusal to give them up, and wish the matter immediately carried into Court. Gen. Grant, it is asserted, favors the latter course.

THE BALTIMORE AFFAIR. A Washington despatch to the Tribune says, referring to Gov. Swann's visit to the President on Thursday last:

It will be remembered that Swann visited the President when the trouble first commenced, and expressed a desire to remove the Police Commissioners immediately after the Mayoralty election without trial. To this the President would not consent. He felt conscious that he made a mistake in the New Orleans matter and felt that he should proceed cautiously with these new troubles, so he instructs Swann to get up some kind of a trial to deceive the people and give him an opportunity in case of a resort to arms by the friends of the Commissioners, to send United States troops to maintain the Governor's policy. Swann has obeyed Mr. Johnson's instructions and the result is known. He now comes here again to be prompted on the next step to be taken. Secretary S. Browning and Attorney General Stanberry I believe were all present at the White House while Swann was with the President. Swann evidently wants more troops sent to Baltimore. It is a positive fact that there are now at least eight hundred soldiers at Fort McHenry, but Swann thinks this force not sufficient. He wants enough to have a guard stationed at each of the election polls on the day of election. Two battalions of the Twelfth Infantry, several companies of the Veteran Reserve Corps, two battalions of United States cavalry, several companies of heavy artillery, several batteries of light artillery, and a regiment of negro soldiers, some twenty-five hundred in all, are now stationed between this point and Annapolis.

## An Effectual Worm Medicine

BROWN'S VERMIFUGE COMFITS,

OR WORM LOZENGES. Much sickness, undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child.—This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children.

CHILDREN HAVING WORMS require immediate attention, as neglect of the trouble often causes prolonged sickness.

SYMPTOMS OF WORMS IN CHILDREN are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making *Brown's "Vermifuge Comfits"* is such as to give the best possible effect, with safety.

## LAW!

CITIZENS OF BANGOR!!

I HAVE BEEN THE RECIPIENT OF MANY acts of kindness, and much sympathy at your hands. For all these favors you have my warmest gratitude, and the assurance that they will never be forgotten.

But having fully decided not to change my residence, let fortune deal with me as it may, but live and die a citizen of Bangor, devoting all my time and energies to the practice of my profession, *one favor, and only one*, I respectfully but earnestly ask of all who desire my happiness, prosperity, and complete triumph over as base a conspiracy as was ever formed to destroy the reputation and blight the hopes of a fellow being—and that is this—*give me, and send me business*—give me that, and I can take care of myself. *Do all in your power to build up for me a permanent and lucrative business.* All that is asked is an opportunity to take care of myself—or in other words, "*enough to do.*"

Words of sympathy, when one is in trouble, cheer the heart, and give courage even in the darkest hour! But sympathy alone does not furnish us food and clothing, educate children, support dependent friends, pay for the preaching of the Gospel, nor enable one to contribute to the support of the various charitable enterprise of the day. Money is essential, indispensable to the discharge of all these public and private duties of citizenship. Give me business, and I will ask you to do nothing more for my reputation or pocket.

It may, I think, be regarded as a sufficient excuse, for making this unusual appeal, that the demands made upon me as a citizen, cannot be met without a more liberal patronage. I may be excused also on the ground that it is very evident that many kind friends have not realized the necessity of this kind of aid, but have in many instances, thoughtlessly placed their business in the hands of my worst enemies.

Gentlemen, I am one of your number, and shall be, I can be respectable and successful, or otherwise, as you may choose to have me.

Benj. Kimball.

## The Trouble in Baltimore.

Arrest and Imprisonment of the Sheriff and New Commissioners.

They are Required to keep the Peace the Sum of $25,000 Each.

A Writ of Habeas Corpus to be Served to-day.

Arrival of General Grant in Baltimore.

*News from the Capital.*

Destructive Fire in Boston.

*European Intelligence.*

BALTIMORE, Nov. 3.

At 12 p. m. a few regular police appeared in the vestibule of the Court House, and commenced at once ejecting the sheriff's posse, who were crowding up stairs from the south entrance. A scuffle ensued, and for a time there was considerable confusion and much threatening language used. Many spectators becoming alarmed, made a hasty exit from the building, causing much excitement outside.

Presently the new commissioners were seen approaching the north entrance of the building on Lexington street. They had scarcely entered the building when Marshal Carmichael appeared, coming from the direction of Central Police Station at the head of a large body of policemen, who made a rapid entrance, and in a few moments cleared the sheriff's men out of the building.

On entering the criminal court, a deputy sheriff appeared and announced that a bench warrant for the arrest of Messrs. Valiant and Young, had been served; and a few minutes thereafter the sheriff appeared with Messrs Valiant and Young in custody. The court informed them that they would have an opportunity afforded them to procure counsel. Presently their counsel, Messrs. Shirley and Latrobe, appeared and inquired for the affidavit upon which the arrest had been made.

The State attorney briefly recited the evidence that had been given by witnesses upon whose testimony a bench warrant for their arrest had been issued.

Counsel for commissioners proceeded to argue that the arrest was unwarranted.

Judge Bond gave his decision that each of the parties be required to give bail in the sum of $25,000, to keep the peace toward the police of Baltimore. Sheriff Thompson was also required to give bail.

It is rumored that they intend to apply to Gen Canby to be released from custody.

LATER. The parties have been committed to jail, having refused to give bail.

It is rumored that martial law will be declared by Gen. Canby.

Baltimore, Nov. 3—4:40 p m.

It is not true that Canby purposes declaring martial law. That General sent for Mayor Chapman and the Police Commissioners, and they had a very pleasant interview with the General at his headquarters. He said he simply desired to be informed by them of the condition of affairs, and of their ability to preserve the peace of the city.

Commissioners Kind and Wood informed the General that they had an extra force on duty, had closed all taverns and grog shops, and were arresting all disorderly persons, that they had so far succeeded in preventing any outbreak, and fully expected to be able to do so.

With this statement the General seemed entirely satisfied, and Commissioners and Mayor returned to their offices.

The city is quiet. Some excitement and riotous demonstrations occurred in the neighborhood of the newspaper offices, upon the announcement of the result of the proceedings in the Court, but the police promptly ended the matter by arresting the parties.

It is believed that the whole affair will now pass off without any serious breach of the peace.

Baltimore, 6 p. m., Nov. 3.

The city is perfectly quiet. The excitement has greatly subsided. The police are maintaining the best of order, and there is no longer any grounds for apprehending trouble.

BALTIMORE, Nov. 4.

The counsel for Gov. Swann's newly appointed commissioners have made application to Judge Bartol of the Court of Appeals for a writ of habeas corpus to bring before him the parties now held in custody by the warden of the city jail, under the order of Judge Bond of the Criminal Court.

Up to the present writing this writ has not been served on the warden of the jail, and as this is Sunday it cannot be served until to-morrow morning, as it is a subject of much discussion, when the writ will be returnable.

It may be well to quote the law of Maryland on the subject of the habeas corpus—

Section 4 of act 43 says that the officer having the party serving out the writ shall within three days after such service make return of writ, and cause the person detained to be brought before the court or Judge, according to command of the writ.

If this discretionary power of the warden to retain the writ within three days should be availed of, it is supposed the parties may not get a hearing before Tuesday or Wednesday morning.

It is not known what course the warden will take. If the parties should be brought before Judge Bartol to-morrow it is presumed the whole question and numerous points of lay involved will be discussed by law by counsel on either side.

The proceedings against the sheriff were initiated by the State Attorney, bringing to the notice of the Court the action of Sheriff Thompson in organizing a posse in the sheriff's office in the second story of the court house, whereupon Judge Bond sent for the Sheriff and warned him to desist, or he would have him arrested for disturbing the peace by an unlawful assembly.

The sheriff, not heeding the warning was subsequently arrested and brought before the court.

The city continues remarkably quiet, and with the exception of small gatherings of people, quietly discussing the situation, and numerous rumors in circulation, there is nothing noticeable out of the ordinary course of events.

It is rumored that Gov. Swann proceeded to Washington this morning.

LATER. The writ of habeas corpus has not yet been served at jail, but will be to-morrow morning. It is made returnable immediately, and the friends of the newly appointed commissioners claim that the warden will have to make his return immediately.

It is currently reported that there will be a set of judges of election, announced to-morrow morning, as appointed by the new commissioners.

The registers of voters, it is also reported, have determined to return their lists only to the judges who shall be appointed by Gov. Swann's commissioners. If this be so, there will be fresh complications.

There is no doubt that the police board will arrest all persons assuming any capacity by authority of the newly appointed commissioners.

Second Despatch.

BALTIMORE, Nov. 4.

Gen. Grant has arrived, and the Police Commissioners, with their counsel, are now holding an interview with him.

WASHINGTON, Nov. 3.

The disbursements of the Treasury Department this week, on account of War, Navy and Interior Departments, was as follows:—

| | |
|---|---|
| War Department, | $3,617,133 |
| Navy " | 982,702 |
| Interior " | 98,290 |

National bank notes were issued to the amount of $518,165, making a total to date of $295,354,854.

The Government holds securities as follows:

| | |
|---|---|
| For circulating notes, | $338,690,650 |
| For deposits of public moneys with designated depositories, | 39,288,950 |
| Total, | $377,979,600 |

The amount of fractional currency redeemed was $262,500; received from printing bureau $645,500; shipped to the Assistant Treasurer and national banks, $5,176,189.

WASHINGTON, Nov. 4.

The President, Gen'l Grant, Gov. Swann, Sec'y Stanton and Att'y Gen'l Stanbury had, it is said, a conference to-day on the subject of affairs in Baltimore.

Brevet Col. Sweeny is here and has made direct application to be reinstated in his former position as Major in the army, from which he was dismissed in consequence of his connection with Fenian movements, but with which he has now no affiliation. There seems to be no doubt from what has recently transpired that the President will reinstate him.

Sanford Conover alias Dunham, arrested last week in New York, charged with having fraudulently procured Wm. H. Roberts to swear to a false statement as to the matter implicating Jefferson Davis in the assassination of President Lincoln, has been brought to this city, and is now in jail awaiting action of the Grand Jury.

It is generally believed that the troops in Washington are all now under marching orders to proceed to Baltimore, in case their presence there shall be deemed necessary to preserve the peace.

Quartermaster General Meigs has issued another pamphlet, containing names of victims of the rebellion buried in the National cemeteries. The pamphlet contains about 8000 names of deceased soldiers from the larger number of all the States.

NEW YORK, Nov. 4.

The Herald's Washington special despatch says:

The President and General Grant were closeted with Secretary Stanton for an hour, on the Baltimore question.

It is the determination of the Government to use all power to prevent any serious outbreak, and if found necessary, to put Baltimore under martial law.

No troops have been sent there, and none are likely to be.

BOSTON, Nov. 4.

Late last night, fire broke out in the basement in the rear of No. 41 Franklin Street, which is in the centre of a large five story granite front block, stretching from Hawley to Arch streets. The flames soon burst through the roof, and notwithstanding the strenuous exertions of the firemen, and the immense quantity of water thrown on the fire, it gained rapidly, and spread to right and left to Nos. 49, 47 and 45, and 33 and 37. The upper stories of the building were entirely destroyed, and the lower stories thoroughly drenched with water. Loss variously estimated at from $300,000 to $500,000, said to be mostly insured, but the details cannot be learned to-day.

NEW YORK, Nov. 4.

Mayor Booth, of Brooklyn, has letters from Gen Grant and Admiral Farragut, accepting the gold medals tendered them.

The Times says:

Gen Bartley and staff, and the field officers of the Sarsfield Brigade have sailed for Ireland, via Bremen, at which port they were to await the arrival of Stephens.

TOLEDO, Ohio, Nov. 4.

A horrible double murder was committed at Coldwater, Mich., last night. Mrs Ellen Leach and Geo O'Brien, a young lawyer, were shot dead while walking together in the street. The murderer is the husband of Mrs Leach, and has been arrested. Jealousy is supposed to be the cause.

LOUISVILLE, Nov. 4.

Hon Meredith P Gentry, of Nashville, died yesterday.

At a meeting of Fenians here, resolutions were passed denouncing the action of the British authorities in reference to the Fenian prisoners.

FORTRESS MONROE, Nov. 3.

The parole granted Jeff Davis some time ago, giving him the privilege of the grounds of the Fortress during the day, has been extended through Executive clemency, in removing all surveillance of him and the guards from his room in Carroll Hall at night.

Instructions to this effect have been sent from Washington to Gen Benton, commandant of the Fort, thus depriving his imprisonment of anything like severity, and paving the way, as is generally presumed, for a final parole and release. All guards over him both during the day and night being removed, he now enjoys every possible means of comfort and pleasure while held prisoner in the Fortress.

It is said he has expressed great satisfaction at this action of the Government, and all ready contemplates visiting Carroll Hall, and taking up his residence with Mrs Davis, in apartments assigned her shortly after her arrival here.

TORONTO, Nov. 3.

The excitement in regard to the Fenian trials is unabated.

The Episcopalian minister, D F Lumsden, was tried to-day. The Court room was densely packed. A large number of witnesses were examined, when the Jury retired and brought in a verdict of "Not Guilty." The prisoner, who was present, was very much affected.

His Lordship, before discharging him, admonished him on the use of ardent spirits, it having been proved that the prisoner was in a state of intoxication during the commission of acts charged in the indictment.

NEW ORLEANS, Nov. 3.

Cotton steady—sales 2100 bales. Receipts 3200 bales.

The grand total of registered voters is 128,162.

WOODSTOCK, C W, Nov. 3.

A number of cases of muskets have been seized at the Railway Station under suspicious circumstances. They appear to have been the property of the U S Government. Consignees not known.

NEW YORK, Nov. 4.

The registry in Brooklyn foots up nearly 50,000 names.

The agency of the British North American Bank was robbed on Friday of $5000 worth of 5 20 bonds. There is no present clue to the robbers.

The Supreme Court yesterday issued an injunction against the East Broadway Railroad Co., restraining them from running cars on tracks surreptitiously laid in Broadway, between Fulton and Ann streets.

Ephraim Smith, a painter, was suffocated to death on Saturday morning, in his room at the Putnam House, by the smoke and gas from a stove-pipe which ran into a half-repaired flue. His two brothers were insensible when found, but have recovered.

Col. Wm. Wilson has been promoted to a brevet Brig. Generalship.

ST. LOUIS, Nov. 3.

A fire last night on Franklin avenue destroyed the flour mill of D G Greenwood and several adjoining buildings. Lost about $25,000—partially insured.

Steamer Tom Stevens has arrived at St. Josephs from Upper Missouri, with $20,000 in treasure.

The agent of the Smithsonian Institute is on board with a large number of petrified animals for Smithsonian Institute and Philadelphia Academy of National Sciences.—There are over 800 kinds of small animals now extinct and bears of mammoth size.—Collections were made in Dakotah territory near the head of White River by Professor Hayden.

Macinaw boats arrived during the day direct from Fort Benton, with a quantity of furs, and considerable treasure. They confirm the reports of continued Indian depredations in Upper Missouri.

NEW YORK, Nov. 3.

Gen Butler was prevented by a crowd of roughs from speaking at a republican meeting in City Hall Park this afternoon.

ATLANTA, Nov. 3.

Total revenue of government for the month of October was $117,000; expenditures $902,200.

A regiment of troops from England is expected to arrive Monday.

NEW ORLEANS, Nov. 3.

Gen. Kidder, Superintendent of Texas Freedmen's Bureau, is about making a tour through the State to examine into the condition of freedmen. He pronounces himself altogether opposed to the determination expressed by many of making yearly contracts for 1867, which he says will be ruinous to their moral and physical welfare.

Indians have appeared in Bandera county, Texas, and are driving in the settlers.

The crops in Texas are nearly all gathered. More had been sown than was expected, but cotton is still very short.

## LOCAL AND OTHER ITEMS.

INSTALLATION. Rev. Mr. Fay the new pastor elect of the Hammond Street Congregational Society of this city, will be installed with due services, on Thursday next, Nov. 8th. An Ecclesiastical Council will be held in the forenoon, and other services (all public) will be had. Installation in the afternoon. The sermon will be by Rev. Mr. McKenzie, of Augusta. Other services by various clergymen of Bangor.

Mr. Fay preached an excellent practical sermon at his church yesterday morning, upon the evidences of conversion.

—The Band Concert on Friday evening was well patronized, and it deserved to be. It was really a very superior performance and indicated great improvement. The music by the Orchestral Club was also very fine. Mr. Appleton, the leader, is an enthusiast in his profession. After the Concert came the dance. It was some time before this was fully inaugurated, the dancers holding back for some one to lead off, but after the ice was once broken, it became a success, as the Times says.

SURGICAL OPERATION. E. J. Brooks, Esq., formerly a resident of Orrington, some ten years ago while conductor on the Louisville, New Albany & Chicago Railroad, had a portion of the left foot crushed off by slipping from the steps of the engine covered with ice, since which time he has been compelled to use crutches, besides being a great sufferer from constantly running sores. Four weeks ago Dr. E. F. Sanger, of this city, removed five of the instep bones and otherwise remodelled the foot so as to give him a fine walking stump.

It is a source of satisfaction to Mr. Brooks as well as creditable to the Doctor, as he had been advised by many eminent surgeons both in the West and East to have the limb amputated at or above the ankle joint.—Times.

The doctor's large experience before and during the war, as well as his fine professional attainments, classes him among the first physicians in the State.

ROBBERY AT A BOARDING HOUSE AND ARREST OF THE THIEF. A man named O'Brien keeps a boarding house at Brewer, where he accommodates a large number of boarders. For the last two months a number of these had stolen from them various sums of money, varying from five dollars to twenty dollars. On Thursday last, a boarder lost from his pocket while in the house the sum of thirty-nine dollars.—Whereupon Mr. O'Brien acquainted Officer Walker with the circumstance. Friday night the officer got on the trail, and arrested at another boarding house, while in bed, a young man named Charles Bowden, alias Williams, alias Wallace, and on searching his clothes, recovered a portion of the stolen money. Bowden was committed to jail, and now awaits examination. Since the arrest Officer Walker has recovered the balance of the money stolen and also the wallet.—Times.

INJUNCTION DENIED. In the case of Ether Shepley et als., trustees of the bondholders of the Atlantic & St. Lawrence Railroad Company in equity vs. Atlantic & St. Lawrence Railroad Company et als., on a petition for injunction against the Grand Trunk Company and its employees from preventing plaintiffs taking possession of the A. & St. Lawrence Railroad, for breach of covenant in the mortgage of the road, by the non-payment of the bonds of the Company, which fell due last April.—Press.

—The Farmington Chronicle says Edgar Goodrich of that town, a young man of eighteen years, died Sunday evening last, from the effects of poison, swallowed by mistake, intending to take cough syrup, he got a bottle of corrosive sublimate, and only discovered his mistake by reading the label, after taking a large swallow. He lived one week, suffering intensely during the time.

—Launched, in Stockton, from the yard of C. S. Fletcher, a bark of 600 tons, built by Solon Crooker, to be commanded by Capt. W. H. Park of Searsport—loading for Buenos Ayes. Also from the yard of Coicord & Mudgett, brig E. H. Rich of 370 tons. At Lincolnville, from the yard of John Carver, a schooner of 210 tons. So says the Belfast Journal.

—Tenney of the Brunswick Telegraph dislikes early rising—hence he objects to "the blowing of that infernal machine at the depot" at 4.30 A. M. We have sympathy with our Brunswick brother. There is a horrible steam mill or steam-tug somewhere within ear-shot of our domicil that fairly out-screams the cats, about the middle of the printer's night.

—The Hallowell Gazette says that city narrowly escaped a great conflagration at the time Mrs. Hovey's and Mr. Brooks' houses were burned. No less than twenty-one other buildings were on fire from the cinders—all about the same time. It required some lively work on part of the citizens, to take care of all of them.

—The Waterville Mail says that Mr. George E. Shores, of Waterville, has recently sold to Messrs. A & W. Sprague, of Providence, R. I., three pairs of his famous Hereford oxen for the gross sum of $1125, being $425 for a pair of three-year-olds, $400 for a pair of four-year-olds, and $300 for a pair of six-year-olds.

—The editor of the Loyal Sunrise, who has enjoyed a libel suit, says: "We trust the brethren will not be frightened. These libel suits for healing chronic depravity of character, are very much like trimming up a jackass's ears to make a colt of him! All the essentials of the ass are left after the length of ear is gone."

—The top part of the spire of Rev. Dr. Adams' church in Brunswick was blown down by the gale on last week. It had long been in a weak condition.

—The Rockland Press says that the manufacture of lime is going on in that city as brisk as ever, and that many cooper shops have been erected and many hands employed in coopering, so that a large proportion of the casks now used are manufactured on the premises near the kilns.

—The Kennebec Journal speaks of a great calf owned by Mr. M. W. Norton of New Portland, which at ten weeks old, measured 4 feet, 4 inches in girth and was sold for $55. From the mother of the calf he afterwards made 114 lbs. of butter in seven days.

—The Portland Argus of Saturday says: "Twenty-six years ago to day (1839) our worthy Street Commissioner, Nazum Libby, drove the mail stage from this city to Augusta on runners; and good sleighing continued for one hundred consecutive days."

—Winthrop Pond (otherwise and more properly called Annabescook Lake) has been a popular pleasure resort during the past season, mainly through the energy of Mr. Stanton of the Winthrop House. The visitors numbered 4000 or more against 600 last year.

—The Watervillo Mail says that Mrs. Ingalls, an aged lady, living on Front St., was thrown down stairs by coming in collision with a large house dog, a few days ago, by which accident one of her arms was broken.

—The Hallowell Gazette learns that on Wednesday last a daughter of Charles A. Douglass, of Waldoboro, fell from a scaffold breaking her hip and receiving serious internal injuries. Her age is 11 years. She is not expected to live.

—A. C. Dennison & Co., Mechanic Falls, turn out five tons of paper per day. The Star and Diamond mills manufacture book and paper hangings; the Eagle manufacture newspaper.

—A writer on the climate of Maine says that we barely escape having it much colder than it is, and we ought therefore be content. There is something in that worth thinking about.

—The Oxford Democrat says a despatch to Hon. Sidney Perham, received Wednesday, stated that his brother, Joel Perham, Jr., was sick with cholera, in Chicago, with little chance of his recovery.

—The York County Free Baptist Quarterly Meeting will commence its session with Rev. Mr. True's church, Saco, next Wednesday and continue through the next day.

—The horse railroad of Portland is doing a good business. The passengers for October were 98,355—an increase of 23,055 over October 1865.

—The Houlton Times says that Rev. E. G. Carpenter has returned and will resume his labors with the Congregational church at that place.

—The Sentinel says the Eastport people are to have a steam grist mill, erected by Mr. B. L. Chadbourne, on the Leighton wharf.

—At Biddeford the gale of Tuesday took off the tarred roofing of the City Building—dashed in one of the Post Office windows, and lifted the roofs of several buildings.

—The proprietors of the steamer Enterprise, plying between Saco and Boston, are making arrangements to touch at Portsmouth on the down trip.

—Marshal Johnson of Hallowell was seriously injured on Wednesday last by being thrown from his carriage, as we learn from the Gazette.

ALMS HOUSE BURNED—*Three Lives Lost.* We learn from the Press that the Alms House, in Falmouth, was destroyed by fire on Thursday night, and that three of the inmates were burned to death.

—The Baptist Society of Kennebunkport has raised $160 by a concert.

—Nearly 20,000 boxes of eggs, containing 100 dozen each have been sent from Maine to Boston during this year. The Biddies are doing well.

—Mr. C. S. Weston of Eastport launched a 250 ton schooner last week.

—Rockland has a new steam fire engine, built by the Amoskeag Company. It arrived on Thursday.

FELLOWS' ORIGINAL
WORM LOZENGES.
WE can with confidence point to FELLOWS' WORM LOZENGES as the most perfect remedy for those troublesome pests,
INTESTINAL WORMS.
After years of careful experiment, success has crowned our efforts, and we now offer to the world a confection without a single fault, being safe, convenient, effectual and pleasant. No injurious result can occur, let them be used in whatever quantity. Not a particle of calomel enters their composition. They may be used without further preparation, and at any time. Children will eagerly devour all you give them, and ask for more. They never fail in expelling Worms from their dwelling-place, and they will always strengthen the weak and emaciated, even when he is not afflicted with worms.
Various remedies have, from time to time, been recommended, such as calomel, oil of wormseed, turpentine, &c., prod cing dangerous and sometimes fatal consequences. After much research, study and experiments, embracing several years, the proprietors of FELLOWS' WORM LOZENGES have succeeded in producing this remedy, free from all objections, and positively safe, pleasant and effectual. They do not kill the worms, but act by making their dwelling place disagreeable to them. In order to assure consumers of the genuineness of these Lozenges, the analysis of DR. A. A. HAYES, State Assayer, is annexed:
I have analyzed the WORM LOZENGES prepared by Messrs FELLOWS & CO and find that they are free from mercury and other metallic or mineral matter. These Lozenges are skillfully compounded, pleasant to the taste, safe, yet sure and effectual in their action. Respectfully, A. A. HAYES, M. D.
Assayer to the State of Mass."

THE Subscriber offers to the citizens of BANGOR, a rare chance to avail themselves of the unparalleled benefits of COL. A. BAILEY'S CELEBRATED FEATHER DRESSING
—AND—
RENOVATING MACHINE
The most successful patent of the kind ever offered to the public; and we venture the prediction that it never will be excelled for it proves to be exactly what all conditions and qualities of feathers, from entirely new to old and much worn, need to render them as perfect as age, quality and condition will admit of their being made. The cleansing is done entirely by steam.
One dollar and fifty cents per bed, including the pillows and bolsters, provided the feathers are suitable to run with the bed.
I will call at each house to receive the beds and return them when finished.

### Mr. Nasby Describes the Effect in Kentucky.

CONFEDRIT X ROADS, (which is in the Stait uv Kentucky,) October 13th, 1866.

There is mourning in Kentucky. The results of the election in Ohio, Injeany, Pennsylvania, and Iowa reached me yesterday through a Looisville paper which wuz dropped off the cars at Secessionville; wich is the nearest station to us, and wich, I hapenin to be there picked up—

Ohio—40,000 Ablishin!
Injeany—20,000 Ablishin!
Pennsylvania—20,000 Ablishin!
Iowa—30,000 Ablishin!

Ablishin wat a dreary waste uv Ablishin. Not a single oasis uv Democrisy anywhere—nary Ararat on which our ark kin rest in safety, but all around us the mad waves of Ablishinism rearing their crested heads muddily.

I felt it my dooty to make the fact known to my neighbors, for, sposin that His Serene Highness' trip wood secure us enuff deestricts to make the next Congress safe, and consequently make us certain uv admishun. They hev been makin arrangements for restorin things to their normal condishun, ez they were before the war.

In fact, two weeks before, in view of the expected succes uv the Democracy, a meetin had been held on the subject. Some wuz for at once seezin the niggers wherever they cood be found and puttin em to work, but the conservatives overruled this. They held that Slavery hed bin abolished and that it ought not to be restored, in fact, that to act in good faith, it cood not be reestablished. Deekin Pogram announced a plan. The town authorities shood pass a ordinance for the proper govenment uv the niggers. For instance, they shood not be permitted to be out after 7 o'clock P. M., in the evenin; they shoodent leave the plantation onto wich they wuz employed; they shood work every day till 7 and do away with the pernicious work uv the Freedmen's bureau; no man and wife wich hed been married by a chaplin uv the Bureau or any one else, shood be employed on the same plantashen, and also no father or mother and child. Sich ez vilated these ordinances shood be arrested by anybody and fined, and in default uv payment uv the fine and costs shood be sold to the person who wood take his or her labor for the shortest number uv years and pay the fine and costs aforesaid. 'Ez a conservative,' said the Deekin, 'I report this plan.'

'Do you want to know my deffinition uv the word conservative,' said Joe Biggler, a returned confedrit solger, who I beleeve hez seen enuff uv war. 'It's a man who goes a roundabout way to do a devilish mean thing. Deekin, why don't you go to the devil by a straight road ez I do.'

The interrupshen uv the demoralized wretch wazn't notist, and ez the trustees uv the town-ship wuz all present the ordinance wuz passed, and that nite two-thirds uv the niggers within five miles uv the Corners wuz arrested and sold and within two weeks every one hed bin captered!

I hied me to the Corners and the first man I saw wuz Bascom, the grocery keeper, engaged in the congenial busines uv tappin a barrel uv contentment which he hed just received. I wuz a goin to tell him the dread intelligence, when he caught sight uv me. 'Taste that Parson,' sed he, holding out a tin dipper full. I drank it off and one look at him unmanned me. 'Kin I ofer cloud that smilin cheek,' thot I, ez in a fit uv absent mindidness which I have every now and then, I held out the empty dipper to be filled again which it wuz—'no! for a time be they be spared,' and I borrowed his mule and rode away pensively.

I wuz going fust to Deekin Pogram's, for he wuz the most interested uv enny in the settlement. After the meetin mentioned above, the Deekin hed caused the arrest uv sich niggers ez he cood ketch, and hed him fined in sums uv $275 and upwards, wich bein unable, ez a rool to pay the fine, he hed kindly bid em in.

He hed picked up, here and there all uv his old servants, ceptin those which hed bin kill d in the army and the few misguided ones wich hed made their way North, and that mornin the old plantachen wuz to be reconstructed upon the old patriarchle system. Mrs Pogram wuz marshellin four uv the likeliest wenches I ever saw in her kitchen; her son Tom wuz chuckling a yaller gal under the chin which hed bin born on the place about eighteen years before, and wich, owing to an unfortunate resemblance to the Deekin, hed caused a unpleasantnis between him and his wife wich ended in the loss of the most uv his hair and the sellin uv the girl's mother to Noo Orleens.

The two girls hed each their waitin maids and wuz a puttin them through their paces. There had been some trouble in gettin em reconstructed, it being deemed necessary to take the conseet out uv em, wich they wuz all a doin. Ez I rode up the old lady hed just knocked one uv em down and wuz dancin a Hiland fling onto her prostrate body. Almira, the oldest gal, hed her fingers in the wool uv her gal, and tother one wuz a thumpin hern to redooce her to her proper level, and the Deekin hisself wuz a deelin with one ongreatful wretch, who objected to bein put out to work on terms, not realizin that the Bureau wuz gone. Ez the Deekin hed a revolver he yielded the pint, and submitted to be flogged, wich the Deekin wuz doin ez neetly ez I ever saw, considerin he hed bin out of practis four years.

He hed him tied up to a tree and wuz a wollopin him gorjus. While he wuz a convincin uv him with his whip that there wuz trooth in the skripter, that Ham wuz reely a servant unto his brethern, I exclaimed, 'stop!' and immediately whispered the appallin news in his left ear (tother one hed bin chawed off in a misunderstandin at Bascom's, the previous Sunday nite after servis.) Never shel I forget the look uv woe on that eminent Christian's face. The whip fell from his nerveless hand, and with tears streamin down his cheeks, washin up little streaks uv dirt in the most heart-rendin manner, he gasped in a husky voice to the wife uv his buzzum, 'Cut him down, Mirandy, the North has gone Ablishin and the d——d niggers will be free any how,' and the old patriarch swooned away at my feet.

And sich an expreshun of anguish ez distorted the face uv the Deekin's wife, I hope never to see agin. Droppin the shovel she stood as one petrified, with her foot elevated in mid air, ez in the act of steppin, and uttering a shreek, she fell precisely ez she stood, with her leg crooked ez ef twuz froze there. Tom released the gal he wuz subduin, and mountin his hoss rode off to the Corners without saying a word, and, unable to witness the distress of that stricken family, I made haste to mount my mule and go to, while the niggers, feelin that they were wunst more their own men and women, scattered in every direction.

'Sich is the froots uv Radikelism,' murmured I. 'Sich is the bitter cup fanaticism hez put to our lips,' and casting one lingrin look at the prostrate forms uv the Deekin, his wife and their two gushin daughters, I spurred the mule and departed.

Wood that every Ablishnist in the North had seen that site, and wuz possessed uv a soul to appreshate it. Then wood they vote differently.

HEAVY SHOES FOR THE LADIES.—Winter is coming, and we desire to say a word or two to our lady readers about clothing the feet. When the celebrated physician Abernethy, died, report says that, [illegible] will of some interest to his [illegible] hiary point of view, there was found among his effects a sealed envelope, said to contain the secret of his great success in the healing art, and also a rule of living, the following of which would insure longevity.

A large price was paid for the sealed envelope. It was found to contain only these words: 'To insure continued health and a ripe old age, keep the head cool, the system open, and the feet warm.'

Dry feet are warm feet, generall, if the system is healthy. To keep the system healthy the circulation must be good. The circulation is not good without exercise, and exercise can only be really valuable when walking. Riding in a carriage is no exercise at all; it is merely inhaling the air. This is very well as far as it goes, but the lungs are not in full play without the individual is walking. Horseback exercise is very good, and is an improvement on carriage riding, but it is not the kind of health-creating play of the muscles nature demands. It is action—action of the entire body—and walking only will procure it.

Now, the ladies of Europe, particularly those of England, understand this thing. They walk miles per day, and if any of our pale beauties desire to know how the English ladies keep up their fine color, clear complexion, and superb busts, we tell them it is by out-door exercise; walking in the open air; filling the lungs with pure oxygen, by rapid movements on a sharp October day, when the sun shines brightly and clear blue sky is above. This is the secret of the rich blood of the English women, and their almost universally fine looks and matronly beauty at fifty, when at that age, American women are pale, sallow and wrinkled.

To enjoy a walk, thick soles are needed. Stout, well-fitting calf skin high gaiters, neatly laced, will always 'set off' a pretty foot, and improve a homely one. To guard that sensitive portion of the human frame (for the sole of the foot is keenly sensitive to the changes from heat to cold, or dryness to dampness,) the boot sole should be thick, and as well made as human ingenuity can do it. Then, even in moist weather, or in a rain storm, the foot can be protected; that insured, all is well with the body.

SENDING PHOTOGRAPHS AND FAC SIMILES BY TELEGRAPH.—Mr Field has brought out to this country a number of very interesting specimens of the system of telegraphing now in operation between Paris and Lyons, and Paris and Bordeaux, by which exact copies of the messages are produced at either extremity of the lines, solely by mechanical means. The message is written on prepared paper covered with a lead colored surface, which is a non conductor of the electric fluid. The writing or drawing, in the ink furnished for the purpose, changes the points touched by it to the opposite electrical character. The pendulum is swinging at each end of the circuit in unison. Its upper end is divided into points say, like a fine tooth comb. The message being passed over these at one end, sends a current to correspond with the writing or lines, and produces an exact copy of the original upon the prepared paper held to the vibrating pendulum in the distant city. Thus a fac simile of writing and signature is furnished without any skill of the operator. A drawing of the likeness of a thief or absconding clerk reproduced with minute faithfulness. Patterns of machinery, patterns for bonnets, hieroglyphics, messages in Chinese, or in an unknown tongue, are copied with as little trouble as the simplest letters of a familiar alphabet. Some notices of this have been given in foreign journals, but no description can convey a full idea of the wonderful process. The Hibernian who insisted some years ago, that the telegraph operator should forward his photograph over the wires to his sweetheart was only a little ahead of his age, since this can now be done without the slightest trouble, provided the likeness be taken on the proper material.—N. Y. Journal of Commerce.

DEATH OF A NEWLY MARRIED COUPLE ON THE SAME DAY.—Last week a young couple were married at Cleveland, Ohio, and three days afterward, as they sat at breakfast, each complained of being seriously ill, and neither could eat. The husband was compelled almost immediately to retire to bed, and in a few minutes his wife followed him. A physician was sent for, who, after examination of the patients, pronounced their disease the cholera. Immediate attention was given to them, but they died the same evening. The bridegroom and bride were robed in their wedding clothes, and on Tuesday last were buried in the same grave.

'Sir,' said a fierce lawyer, 'do you on your solemn oath declare this is not your handwriting?'
'I reckon not,' was the cool reply.
'Does it resemble your handwriting?'
'Yes, sir, I think it don't.'
'Do you swear that it don't resemble your writing?'
'Well I do, old head.'
'You take your solemn oath that this writing does not resemble yours in a single letter?'
'Y—e—s, sir.'
'Now, how do you know?'
'Cause I can't write.'

Ritchie's Liquid Compass!
THE Ritchie Compass which has been the standard Compass in the navy for upwards of four years, and also in extensive use in the merchant service, should be used on every class of vessels where a compass is to be depended on. It combines all the qualities of a perfect instrument. To extreme sensitiveness and perfect steadiness is added a strength and durability which prevents them from getting out of order, like other compasses. The reason for this is apparent to any one upon examination. A single trial of this compass has always resulted in its adoption and the rejection of every other kind.
EVERY COMPASS WARRANTED.

THE BEST COOKING STOVE, IN THE MARKET.
"PEERLESS," FOR COAL OR WOOD.
THE "PEERLESS" has all the advantages of the popular stoves in use, together with such NEW FEATURES as justify the manufacturers in calling it the BEST COOKING STOVE in the market.
It is the "PEERLESS," because it is superior to all other Cooking Stoves in Economy, Simplicity, Cleanliness, Baking, Roasting and Beauty.
1st, ECONOMY. A patented method of heating the air and conveying it through the oven, saves from twenty to thirty per cent. of fuel.
2d, SIMPLICITY. It is easily managed. The fire can be perfectly controlled, and kept through the entire season without rekindling.
3d, CLEANLINESS. No dust escapes while shaking or dumping the grate.
4th, BAKING. Its large oven, wherein all parts are of equal temperature, bakes as evenly as a brick oven, and that without turning the article. It bakes quickly. It will bake upon the oven rack quickly, evenly and well at the same time the oven bottom is fully employed in baking or roasting.
5th, ROASTING. A current of hot air constantly passing through the oven, so thoroughly ventilates it, that it roasts as well as a tin kitchen.
6th, BEAUTY. Made of the best iron, it will not crack. Well mounted, artistically designed and smoothly cast, it is the most beautiful as well as the most serviceable stove in the market.
Each stove is WARRANTED to be und to do all that is claimed for it.

SNOW POWDER.
Patented May 29, 1866.
This is an article for washing without rubbing, except in very dirty places, which will require a very slight rub, and unlike other preparations offered for a like purpose, WILL NOT ROT THE CLOTHES, but will leave them much WHITER than ordinary methods, without the usual wear and tear.
It removes grease spots as if by magic, and softens the dirt by soaking, so that rinsing will in ordinary cases entirely remove it.
This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself a universal favorite wherever it has been used.—Among the advantages claimed are the following, viz:—
It saves all the expense of soap usually used on cotton and linen goods.
It saves most of the labor of rubbing, and wear and tear.
Also, for cleaning windows it is unsurpassed.—With one quarter the time and labor usually required it imparts a beautiful gloss and lustre, much superior to any other mode. No water required except to moisten the powder.
Directions with each package.
And can be readily appreciated by a single trial. The cost of washing for a family of five or six persons will not exceed THREE CENTS.
The manufacturers of this powder are aware that many useless compounds have been introduced to the public which have rotted the cloth, or failed in removing the dirt, but knowing the intrinsic excellence of this article, they confidently proclaim it as being adapted to meet a demand which has long existed, and which has heretofore remained unsupplied.
Manufactured by HOWE & STEVENS, 260 Broadway, Boston.

The Law Has Passed!
Bounties Equalized.
Justice Done the Early Soldiers and Seamen of the War, their Widows and Heirs.
NOTICE has been sent me from Washington, that the Law equalizing the bounty to Soldiers and Seaman was passed Saturday last, July 28th, by Congress.
I am now authorized and prepared to collect this Bounty for every Soldier and Seaman entitled, also for their Widows and Heirs.
☞ Application made personally at my office, or by mail,—the discharge of the Soldier or Seaman should be handed in—as it must be forwarded with the application.
☞ All applications must be made signed, witnessed and sworn to, AFTER THE PASSAGE OF THIS LAW. Many soldiers have been induced to sign papers before the law passed. This practice is irregular, fraudulent and void, and papers in all such cases must be made over.

American & Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1837.
No. 78 State Street, (opposite Kilby street,) Boston.
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.
No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.
During eight months the subscriber, in the course of his large practice, made on twice rejected applications SIXTEEN APPEALS; every one of which was decided in his favor by the Commissioner of Patents.
TESTIMONIALS.
"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON," Commissioner of Patents.
"I have no hesitation in assuring inventors that they can not employ a man more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE," Late Commissioner of Patents.
"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but ONE of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGHART."

Bangor, September 13.

NICHOLS HOUSE.
The undersigned having leased, for a long term, and thoroughly renovated and refitted the Nichols House (late "Dwinel House") in Bangor, has this day re-opened the same to the public accommodation.
This Hotel is centrally located, and in close vicinity with the Boats and Cars.
The Proprietor has had a long experience in the "Parker House," of East Corinth, and the "Bain House" of Newport, and flatters himself that to patrons he will furnish an agreeable and comfortable home. Every effort and expense will be used to make this House as popular and attractive as any in this part of the State.
☞ Livery Stable connected with the House.
☞ Coaches in readiness for any business at all hours.
Stages leave this House daily for all parts of the country.

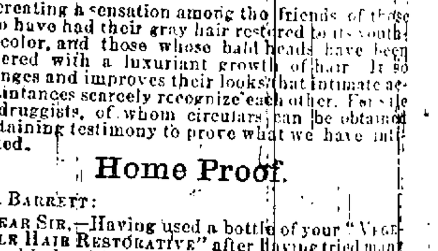
BARRETT'S
THE



Is creating a sensation among the friends of those who have had their gray hair restored to its youthful color, and those whose bald heads have been covered with a luxuriant growth of hair. It so changes and improves their looks that intimate acquaintances scarcely recognize each other. For sale by druggists, of whom circulars can be obtained containing testimony to prove what we have intimated.
Home Proof.
MR. BARRETT:
DEAR SIR,—Having used a bottle of your "VEGETABLE HAIR RESTORATIVE" after having tried many other kinds without success, I am happy to record to it the ne plus ultra of ALL Hair Preparations in the world, and do myself sincerely and cheerfully recommend it to the public as such.
Yours, &c., JOHN FRANKLIN, No. 6 Tremont street, Boston.
Testimony from Abroad.
Messrs. J. R. BARRETT & Co:
I was induced by a friend to make a trial of BARRETT'S VEGETABLE HAIR RESTORATIVE, and I am very much pleased with the effect it has had on my hair. I was nearly half gray, and now, before using one bottle, my head is freed from dandruff, and my hair has all the appearance of youth. I fully believe BARRETT'S to be the best Hair Preparation in the world. WM. HAMILTON.
